

Year Group:	Year 2	Subject:	Science
Term:	Spring Term	Topic:	Animals Including Humans

Links to Previous Learning	
Name some common animals. Match the animals to the labels: birds, fish, amphibian, reptile, mammal and invertebrate.	
Name some common animals. Label animals as carnivore, herbivores or omnivore.	
Illustrate the parts of the body associated with the five senses.	

What you should know:	
Notice that animals, including humans, have offspring which grow into adults.	
Investigate and describe the basic needs of animals, including humans, for survival (water, food and air).	
Describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene.	

Key Fact: I know what type of animal humans are.

Key Vocabulary	
grow	increase in size and change physically
egg	laid by a bird, reptile, fish, invertebrate when fertilised contains growing embryo
hygiene	keeping clean to maintain health and prevent disease
offspring	an animal's young
exercise	activity requiring physical effort

At home: Help your child find out what a pet needs. What would a pet crocodile need to survive?
